What is 4-H?

4-H is the nation's largest youth development program. We create hands-on experiences through project-based learning that allows youth to build life-long skills.

These skills are built through the 4-H's which stand for:

Head - making sound decisions, goal management, and developing practical skills.

Heart - act with integrity and accountability, developing positive relationships with other youth and adult volunteers.

Hands - building skills through our slogan "learn by doing" and using those skills to help and build community.

Health - build skills to take care of your mind and body.

Partnership - Green Lake County 4-H is a program under UW- Madison Division of Extension. We work to provide research-based youth programming that allows youth to Thrive as they grow into adults!
